Subject: Reminder - 2016 Oil and Gas CTG - action required for some air districts
Attachments: Neg Dec sample 2016 Oil and Gas CTG.docx

Per my earlier call with you, EPA's 2016 Oil and Gas CTG provided a 2-year window to submit SIP revisions to implement the 2016 Oil and Gas CTG.

The table below lists the status of these SIP submittals which were due 10/27/18.

Please review the table and adopt and submit a negative declaration for the Oil and Gas CTG, or let us know if you've already submitted a negative declaration.

The submittal must follow the same process as a SIP submittal and should be done as soon as opportunity allows.

2016 Oil and Gas CTG Negative Declarations status

2008 ozone nonattainment areas	Listed in CARB's staff rpt (pg 2) as having sources	Neg dec submitted?
Antelope Valley		No submittal received – neg dec needed
Eastern Kern		Yes – RACT SIP submittal dated 8/9/2017 (pg 27)
El Dorado Cty		Yes – RACT SIP submittal dated 1/4/2017 (pg 4)
Feather River – ozone nonattainment portion		Yes – Neg dec submitted 12/7/2018
Imperial Cty		Yes – RACT SIP submittal dated 11/14/2017 (pg 21)
Mariposa Cty		No submittal received – neg dec needed
Mojave Desert		No submittal received – neg dec needed Q: MD asked if including neg dec in 2015 RACT SIP (target fall 2019 adoption), can satisfy this. EPA is researching.
Placer Cty		No submittal received – neg dec needed
Sacramento	✓ (sources covered under CARB rule)	
San Diego		No submittal received – neg dec needed
San Joaquin	✓ (sources covered under CARB rule)	
South Coast	✓ (sources covered under CARB rule)	
Ventura	✓ (sources covered under CARB rule)	
Western Nevada Cty – Northern Sierra		Yes – RACT SIP submittal dated 6/7/2018 (pg 12)
Yolo-Solano	✓ (sources covered under CARB rule)	

Clarifications:

1. Transmission and storage compressor stations are not covered under the CTG.
2. The EPA previously requested comment on withdrawing the 2016 Oil and Gas CTG. No decisions has been made to withdraw the CTG, and therefore the 10/27/18 due date for a SIP submission still applies.
3. Attached is an abbreviated negative declaration "staff report" which, if compatible with your local SIP adoption process, can be used to support a SIP submittal for the negative declaration.

Please feel free to contact me or Rebecca Newhouse at 415 972-3004 (Oil and Gas CTG) if you have any questions.

Stan
